Mario Pouf

Sustainably comfy and stylish

The Mario Pouf Collection combines natural cork with innovative recycled materials. From pure expanded cork to upcycled sneaker microfiber, each version tells its own sustainability story while offering versatile seating for any interior.

Design by: Alain Gilles

Expanded Cork

Pure smoked cork, dark tone

5.5 kg (11 lbs)

Density(100–120 kg/m³)

Compressed Cork

100% recycled cork, most affordable

9 kg (19,8 lbs)

Density(300 kg/m³)

Sneaker White

Cork + recycled white microfiber

12 kg (26,4 lbs)

Density(400 kg/m³)

Sneaker Black

Cork + recycled black microfiber

10,8 kg (23,8 lbs)

Density(360 kg/m³)

Mario Pouf

100% recycled cork

These graphic pieces make a statement thanks to the beauty and uniqueness of cork, and its natural properties.

Alain Gilles developed the concept to bring the natural world into workspaces and commercial environments. Each piece acts as a natural acoustic element while reducing stress and promoting wellbeing.

All versions are made entirely from recycled cork, making the Mario Pouf one of the most sustainable seating options available.

FINISHES & MAINTENANCE

WARRANTY
The Mario Pouf carries a ten year warranty. For further details please refer to our Terms and Conditions.

MAINTENANCE
To keep your Mario Pouf looking its best we recommend regular, gentle cleaning with a slightly damp cloth. Any spills should be immediately blotted with an absorbent cloth.

RESOURCES
Please visit our resources library for product assets including images and CAD files.
