Terra Planters

Modular cork planter,
transformable into
a bench or table

Greenmood®

Terra Planters

Green design, modular by nature

The Terra Planter is a modular indoor planter crafted entirely from expanded cork. Its versatile design can transform into a bench or high table with an optional oak cover, combining greenery with acoustic comfort and everyday functionality.

Design by: Alain Gilles

Specifications

- Available in 2 sizes
- Transformable into planter, bench, or high-top table
- Optional Cover (Oakwood)
- Body made of expanded cork with acoustic properties
- Renewable, recyclable & maintenance-free material

Materials

Expanded cork

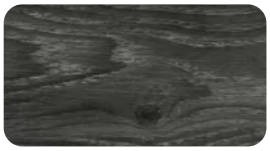
Origin	Europe
Durability	Stable, waterproof, recyclable & reusable – no additives needed
Health	Non-toxic, non-allergen, no emissions under fire
Lifespan	Practically unlimited without loss of properties
Mechanical	High density(100–120 kg/m³) – excellent stability & resistance
Sound absorption	NRC 0.35 (ISO 11654:1997)

Expanded cork is a by-product of the cork industry, made by steam-heating cork granules from the upper bark of cork oak trees.

This process naturally binds the material **without additives**, creating **lightweight blocks** with **excellent acoustic properties**.

Oakwood

Natural



Black

Origin	Europe
Durability	Stable, waterproof, recyclable & reusable – no additives needed
Health	Non-toxic, non-allergen, no emissions under fire
Lifespan	Practically unlimited without loss of properties
Mechanical	High density(100–120 kg/m³) – excellent stability & resistance
Sound absorption	NRC 0.35 (ISO 11654:1997)

An optional **solid oak cover** can transform the Terra Planter into a high-top table or a bench with integrated storage.

Available in two sizes and finishes (Natural or Black), the cover is sold separately.

MODELS

SHORT

18 kg (40lbs)

TALL

30 kg (66lbs)
